- Watching Films
- Go karting

PROFILE

Passionate and dedicated Computer Science student with strong technical and problem-solving skills. Currently pursuing a Bachelor's degree in Computer Science while holding a Diploma in Computer Science. Experienced in Python, Web Development, and C Programming, with hands-on exposure to Big Data, AWS, and Data Science. Enthusiastic about learning new technologies and implementing innovative solutions.

EDUCATION

Bachelor's

CMR Technical Campus
07/2024 – Present | Hyderabad, India
Currently pursuing a Bachelor's in Computer Science, focusing on software development, data structures, algorithms, and cloud computing. Working on projects related to web development, Python programming, and data science applications. Engaged in coding competitions, hackathons, and technical workshops to enhance problem-solving skills.

Diploma in Computer Science

Teegala Krishna Reddy Engineering College
09/2021 – 05/2024 | Hyderabad, Telangana
Completed a Diploma in Computer Science, gaining fundamental knowledge in programming, networking, and database management.
Built practical skills in C programming, Python, and web development through coursework and projects.
Participated in industrial training and internships to gain real-world exposure to software engineering and IT infrastructure.

PROFESSIONAL EXPERIENCE

CodSoft

Intern
01/2025 – present | Hyderabad, India
Developed Python programs to enhance software efficiency and user experience.
Implemented new features and functionalities to improve overall software performance.

NSIC Corporation of Small Industries

Industrial Training
06/2023 – 12/2023 | Hyderabad, India
Gained hands-on experience in Python, AWS, Big Data, and Data Science.

Worked collaboratively with teams to develop technical solutions for industry challenges.
